Connecting Learning To Life

October 30, 2017

Dear Kathy Yong:

Please accept this letter of recommendation for **Jeremy Neldon** to be admitted to the Math Specialist in International Schools (MSIS) program for K-8 teachers. As the elementary school principal, I serve as Jeremy's direct supervisory administrator. I have worked with Jeremy for over three years and recommend him, without reservation, for this program.

Jeremy is a strong candidate for the MSIS program for a variety of reasons. As a classroom teacher, Jeremy has proven to be a strong math educator. As a math leader in our school, Jeremy has provided invaluable leadership on our elementary math committee. Jeremy has a deep understanding of the Common Core Standards, and has taken lead in helping our school understand how to help teachers and students understand the Math Practices aspect of the standards. Jeremy also has a deep understand of how students learn math content. He will benefit from the program's training in how to work with peers in a mentoring relationship, as Jeremy is interested in pursuing a position of serving as a full-time math coach.

In summary, I recommend Jeremy Neldon to the MSIS program without reservation and encourage you to admit him to the cohort. If you have any questions, please feel free to contact me at esprincipal@ssis.edu.vn.

Sincerely,

Daniel J. Keller, PhD
Elementary Principal
